The above changes were attributable to the following in accordance with the New Standards and Amendments: (1) the income for the Last Period, which was inconsistent with the revenue recognition approach, was restated as contractual liabilities; and (2) gradual adjustment to and improvement in the internal control measures taken by the Group to perform contractual obligations and collect repayments.

In terms of management and strategy consultancy services, the Group has committed to keep abreast of the development trend which focuses on national policies and IT technology, and persistently promoting businesses development related to IT consultancy, investment and merger and acquisition consultancy, corporate management and urban planning by encompassing the strategically emerging industry, while at the same time, continuously expanding customer resources, so as to enable the Group to acquire more sales channels and technical support in the course of developing management and strategy consultancy services. The increase was primarily attributable to the Group which proactively forged ahead with the transformation from single planning to campaign organization, investment attraction, application and registration, and custodianship for its market consultancy services. By amassing the cluster effects of industrial development, we launched the service model of "CCID Accelerator". Meanwhile, through establishing the investment and financing information database and the repository of listing companies, the Group continued exploring new, while market consultancy services remained basically stable.
